HYPOCRISY IN THE VILLAGES

This month convicted felon Paul Manafort, who briefly worked for the Trump campaign, will be the guest speaker at a faux MAGA club in The Villages. It is quite ironic that the leaders of a club that recently attempted a coup of [The Villagers For Trump Club](#), were sent a [cease and desist letter](#) from a previous money laundering organization they set up, would have a convicted felon as their speaker, while at the same time working overtime to destroy hard core REAL Trump supporters, if they are TRULY MAGA supporters.

At a recent event, one of the founders of this club called the police and tried to have Trump supporter, activist, and independent Journalist Laura Loomer arrested for attending the event as a guest of the speaker.

The leaders of this club are currently doing everything they can, including working with the RINO establishment, to defame and destroy one of the most visible and vocal Trump activists in Sumter County, Florida, yours truly.

First, it is hypocritical to claim what the FBI, DOJ, RINO establishment, DemocRats, or the media is saying and doing to President Trump, and what they did to Paul Manafort, is all BS, and then say what the same corrupt organizations claimed about the author of this newsletter was true.

Second, it is hypocritical to make the claim you are a Christian and then treat people the way they treat people based on what they read in the media, reelected based on a corrupt FBI

statement from a decade ago, or based on a frivolous and political hit job that is happening in the lawfare environment we find ourselves in today.

The FAUX MAGA club appears to be another money laundering operation of Annie Marie Delgado much like the "Trump Team 2020 Florida LLC" she set up to launder money using the Trump name. She was busted then and ordered to cease and desist, the Florida GOP issued a statement saying, "Trump Team 2020 Florida LLC is not affiliated with the Republican Party of Florida, the Donald J. Trump for President campaign or Trump Victory." DelGado's current involvement with the Villages MAGA club appears to be an extension of her old illegitimate club as public records show the MAGA club is not registered in the state of Florida yet they claim on their Twitter account they are a non-profit organization. No EIN number appears to be available which probably explains the absence of an official board of directors. Needless to say, this could land those who donate, pay for memberships, or attend an event in hot water if they attempt to write off the money given to this club. Which appears to be lining the pockets of Tommy and Valerie Jamieson as well as Ms. DelGado.
